Fall Managed Care Forum to be held in Las Vegas on November 8-9, 2007

Richmond, VA — The American Association of Managed Care Nurses (AAMCN), the National Association of Managed Care Physicians (NAMCP) and the American Association of Integrated Healthcare Delivery Systems (AAIHDS) announce that the Fall Managed Care Forum will be held on November 8-9, 2007 at the Paris Resort and Casino in Las Vegas, NV. Attendees at this annual conference will include nurses, physicians, medical directors and healthcare administrators with health systems, integrated healthcare delivery systems, PHOs and IPAs.

The 2006 Fall Managed Care Forum included three pre-conference workshops for nurses that focused on leadership and case management issues. General sessions included topics regarding updates in the managed care field as well as what the future holds for the industry. There were also clinical tracks focusing on such issues as wound care therapy, HBV, Parkinson's Disease, ACS and cervical cancer.

Registration and program information for the Fall Managed Care Forum will become available in May. The topics in this agenda will be similar to those included in the 2006 Fall Forum program. There will be an exhibit hall consisting of numerous pharmaceutical companies, disease management companies, software companies and other companies that provide medical services and products. For information on exhibiting and sponsorship opportunities, please contact Laura Givens at 804-747-9698.
