### **Managed Care Nursing Practice Standards Revised**

Richmond, VA—August 3, 2007: The American Association of Managed Care Nurses (AAMCN) announces that the “Managed Care Nursing Practice Standards” have been revised. Revision of these standards evolved in response to the ever-changing role and function required of the professional nurse in today's managed healthcare delivery system. The basic format for these standards was modeled after currently published standards for the practice of professional nursing.

These standards were developed by a committee of managed care nurses employed in a variety of managed care practice settings throughout the United States. The committee was led by Chairperson Janet Gilbert, MSN, BSN. Committee members included Gloria Guern, RN, BSN, Sandra Miller, RN, Arlene Perry, RN, Shelly Martin, RN, BSN and Sheryl Riley, RN.

Copies of this publication can be purchased online at [www.aamcn.org](http://www.aamcn.org) or by calling Laura Givens at 804.747.9698. The price for one copy is \$15.00 for AAMCN members and \$20.00 for nonmembers.
